hauled Down Flag

Union Jack Cut From Canadian Custom's Office at Skagway.

An Oregon Man Who Seeks Notoriety Commits the Silly Act.

One Newspaper Reproves Boorishness While Another indulges in Spread Eagle.

SS. Islander, which arrived last night from Skagway, brought news of the hauling down of the British flag from the Canadian customs office at Skagway by a United States citizen, George Miller, a lawyer, who is a brother of Joaquin Miller, the Californian poet. The office at Skagway is Mr. Busby, and his title is "superintending customs officer," having been stationed in 1897 at the port at the head of Lynn canal, which by reason of possession, has been claimed by the United States, although the boundary—if the line were correctly drawn—would run to the south of Skagway, and place the strip of land claimed by the United States to the White Pass summit in Canadian territory. Mr. Busby was placed at Skagway during the rush to the Klondike by arrangement between the Canadian and United States governments, his office being to facilitate travel, and his zealous work has won laurels for him. Until this month his office at Skagway had no flag pole raised above it, and only his shingle hanging outside advertised it. Recently a flag pole was completed and on June 20 the British flag was hoisted above the office. The Empire's emblem had hardly begun to wave in the breeze when some would-be patriots, with minds which run on a much narrower scale than the regular gauge, went to Mr. Busby and protested, demanding that on the territory to which the United States has a squatter's right, the Canadian flag should be flown only with the Stars and Stripes above it; whereas Mr. Busby laughed, and the flag still flew. Then C. L. Andrews, United States deputy collector of customs at Skagway, called on Mr. Busby, to protest in regard to the British flag being raised there, and he was shown a letter from the Ottawa customs authorities in which the department instructed the Canadian collector to fly the flag, for under similar conditions the United States officers were flying their flags over their offices on British soil. Thereupon Mr. Andrews took no further action, but on June 22 a lawyer who had come to Skagway from Oregon, saw a brilliant idea to get notoriety, and advertising. He walked over to Mr. Busby's office, and, stopping at the foot of the flag-staff, took out his jack-knife, cut the halyards, and pulled down the flag. As the flag fell he caught it and wrapping it up in a bundle, tossed it into the customs house. Mr. Busby ran out at once to protest, and the lawyer was awaiting him with a business card, which he promptly handed to the official, and then made himself scarce. The business card read: "George Miller, attorney-at-law, Eugene, Oregon." He is a brother of Joaquin Miller, the Californian poet, whose freak actions has won him much notoriety.

Mr. Miller seemingly is not alone at Skagway, for two days later, when the British flag was again flying above the customs house, two other United States citizens went to Mr. Busby and demanded that it be taken down or they would pull it down. These "patriots," J. M. Tanner, U.S. marshal, and E. McWest, went to a store and purchased a small United States flag, which they took to the Canadian customs office, while the latter was seated at his evening meal, and demanded that this flag be flown above the British flag, if the flag was to be flown above the building. They used some very strong language in the demands, but the over-courteous Mr. Busby, while ready to assert his right, concluded, like the keeper within the walls, he has here, that these men, and took down his flag, until his protest to his department at Ottawa and the United States authorities at Washington is received. A protest embodying all the facts of the case has been forwarded to the U.S. government. The affair caused much excitement at Skagway.

The Skagway Alaskan, in an editorial regretting the incident, says: "From the standpoint of patriotism no doubt rash deeds are committed, but none the less deplorable, while from a business and social point of view the British ensign becomes gross ignorance and fraught with a spirit of engender bad feeling and stir up strife among a citizenship whose interests are identical, and whose loyalty cannot be questioned. We must be careful to draw the line upon patriotic principles and not upon braggadocio and vandalism."

The Skagway News says: "The hoisting of a foreign flag over the customs house could have but one result, and that quickly followed. The feeling engendered by the gradual encroachment upon our possessions has caused us to look anywhere but to our own government for relief, and every Skagway American—king in his own land—stands ready to protect what little is left of us. Respect to the Stars and Stripes must be given and Old Glory must float on top when a foreign flag is hoisted on our soil."

The News, in its report of the affair, says: "The question which bids fair to assume international proportions as soon as the news of it can reach Ottawa and Washington, is being discussed today with the mass of sentiment in favor of the man rather than the flag. While it is generally regretted that any friction should occur between the citizens of one country and the officials of the other, the people are equally as willing to state that there is no occasion whatever for the trouble. On this strip of land which the United States has occupied undisputed since the days of the transfer in '67, the Canadian officials have gradually encroached, unrestrained by the American government. By leaps and bounds the Canada customs house had advanced toward tide water. "From French to Bennett, then to Log Cabin, and lastly to the summit, and when the customs ensign of Canada was hoisted at Skagway it is small wonder that some John Brown would not wait for fairly action from Washington but cut down the flag."

"With the fiasco of the modus vivendi in the Porcupine district fresh in the minds of Skagwayans, together with the anything but cheerful news that the joint high commission would resume its sitting, it cannot be wondered at that an international complication has arisen in a city whose patriotism has been tested time and again by the lazy indifference of their own government as against the aggressive activity of the Britons. With feeling as it is, the action of Canadians was little less than an invitation for trouble, a chip on the shoulder."

A FEDERAL BANK.

Swiss Quarrel Over Its Location and It Drops.

Berne, Switzerland, June 28.—The bill constituting a federal bank with the monopoly of issuing bank notes has fallen through because of disagreement as to the location of the central institution. The national council wanted the main bank located at Berne, and the state council was in favor of establishing the central bank at Zurich.

Proposals All Declined

Five Suggestions From Fishermen Put Before the Cannerymen by Mr. Bremner.

But He Is Told That It Is Impossible to Make Further Concessions.

From Our Own Correspondent.

Vancouver, B. C., June 28.—The executive of the Cannerymen's association met the council of the Board of Trade this afternoon and placed their case regarding the deadlock with the fishermen before them. Later they met Mr. Bremner and discussed five propositions placed before them by the government commissioner, on behalf of the fishermen. Subsequently Mr. Bremner was informed that all his suggestions were unworkable. It is understood that the principal suggestions were briefly as follows: Eleven and a half cent the season through, and the reduction of the number of boats to 2,500, giving whites the preference, or 9 cents the season through, 2,000 white fishermen guaranteed boats and limit of fish per boat purchased raised from 200 to 300; or 15 cents per fish to the 12th of July, 12½ cents to the 3rd of August, and 10 cents thereafter. Mr. Bremner it is understood was informed that it was impossible to make further concessions.

PACIFIC COAST LUMBERMEN

Meeting and Banquet in Vancouver of Shingle and Mill Men.

From Our Own Correspondent.

Vancouver, June 28.—A meeting of Pacific Coast Lumbermen took place at Hotel Vancouver yesterday. Besides ten local lumbermen the following visitors were present: Senator A. G. Foster of the St. Paul and Tacoma Lumber Co.; Mr. M. M. Cole, of the Rice Lumber Co.; Everett; Mr. E. G. Ames, of the Puget Lumber Co.; Port Gamble; Chas. E. Patton, of the Adams Shingle and Lumber Co.; Seattle; Mr. W. W. Hamilton, vice-president of the Seattle Lumber Co.; Mr. E. M. Warren, of the Brantford Lumber Co.; Clear Lake, Wash.; and Mr. V. H. Beckman, editor of the Pacific Lumber Journal.

In the morning the visitors were driven around the park, and visited the Hastings mill and several shingle mills. In the afternoon a meeting took place, which was presided over by the regular monthly meeting of the Pacific Coast Lumber association, with which several of the B. C. mills are affiliated, and in the evening a banquet was given to the visiting lumbermen. The meeting was held in Vancouver for the purpose of giving the visitors an opportunity to see Vancouver, and meet the British Columbia mill men personally.

It is understood that an agreement was reached at the meeting that there should be a uniform price for lumber and shingles in the eastern United States market.

STORM IN QUEBEC.

Lake Meantic and Cookshire Suffer—Bridges Washed Away.

Sherbrooke, June 28.—The worst storm in years struck the Quebec Central and Lake Meantic districts last night. The Quebec Central and Maine Central railways and C. P. R. suffered, bridges are gone and tracks washed away. On the C. P. R. nine miles of track, in East Cookshire, are more or less damaged. At Deseronto Centre a sawmill owned by S. Willard, was washed away, and this morning Willard's body was found badly mangled in the meadow below. The dam at the east of Angus was washed out, and a million feet of lumber went down the St. Francis river.

SPEAKER HONORED.

Demonstration at Mariville for Mr. Brodeur.

Montreal, June 28.—(Special)—A demonstration took place today at Mariville in honor of Mr. Brodeur, speaker of the Commons. Congratulatory speeches were made by Senators Dandurand and Casgrain, Messrs. Bickerdike, M.P., V. Geoffroy, M.P., Madore, M.P., and others.

Board Of Experts

Examining a New Rifle Action Invented By Sir Charles Ross.

Militia Department Provides for the Usual Dominion Day Salute.

Large Attendance Is Expected This Year at the D. R. A. Matches.

From Our Own Correspondent.

Ottawa, June 28.—A board of officers appointed by the department of militia and consisting of Col. Otter, Lt.-Col. Hughes, M.P., Col. Anderson and Mayor Gaudet, met here today for the purpose of reporting on a new rifle action invented by Sir Charles Ross, especially with a view to its adoption to the Lee-Enfield rifle. The volunteers' reception committee dissolved tonight. Souvenir lockets have been given to 196 Ottawa men who have served in South Africa. The total receipts amounted to \$2,308, and after paying all expenses the committee finds itself with a balance on hand of \$44, which it was decided to hand over to the volunteers' memorial funds.

The militia department advises that usual royal salutes may be fired on Dominion Day.

The programme of the D. R. A. matches which commence on August 1, is out. A larger attendance than in past years is expected as more cities have had their rifle ranges enlarged since last year. Six farmers from southern Russia arrived here today. They intend settling in Manitoba.

The heat wave still continues, the thermometer registering 96.

Within the past three months the city has made three attempts to get a site for a contagious diseases hospital. Today another injunction was served against the corporation from building on the site adopted by the council this week.

AUTOMOBILE RACE.

French Premier Says Speed Will be Regulated Hereafter.

Paris, June 28.—The automobile accidents yesterday in the Paris-Berlin race are causing an outcry and Deputy Gauthier brought the matter up in the Chamber of Deputies this afternoon. He asked that measures be taken to stop running automobiles at excessive speed, and remarked that used in normal traffic. The roads would no longer be placed at the disposal of automobile drivers. The statement was greeted with cheers.

FATALITIES.

Found in the River—Drunk Poison—Fred. Sutherland Drowned.

Owen Sound, Ont., June 28.—(Special).—The body of a well-dressed man was found in the river last night. In his pocket was \$53 in cash, and a ticket to Thessalon Bearing, name Wm. Smith, purchased June 25. Nothing else is known of the man.

Toronto, Ont., June 28.—(Special).—Miss Sengco died at the general hospital last night from the effects of drinking a bottle of laudanum the night before with suicidal intent. This was the second attempt in a week.

Dalhousie, N. W. T. June 28.—(Special).—Fred. Sutherland, a rancher, son of Deputy Sheriff Sutherland, of Toronto, is supposed to have been drowned in Dog Pond river west of here. He has been missing for two days. His horse was found.

CRICKET.

So far Canadians and Belmouts Are Playing Even.

Philadelphia, Pa., June 28.—The Canadian cricket team started its first match of the series with the Belmont Cricket Club here today, and when stumps were drawn the visitors had scored 185 for their first innings and Belmont 131 for seven wickets. The contest is the first of the four arranged for the international championship and will last two days.

HIGH WINES.

Sherry from Royal Cellars Sells at Big Prices.

London, June 28.—The sale of the surplus wine from the royal cellars was concluded today. The bidding for the last lots was sensational; several lots of pale sherry from Windsor Castle made in 1802 brought as high as \$142.50 per dozen.

The Leading Druggists, Phone 85.

The field firing of Nos. 1 and 2 companies of the Fifth Regiment, which was timed to commence about 4 p. m. yesterday, didn't begin until after 6 o'clock. The men paraded in town at 2:30 and were at the scene of action—about a mile from the harbor—by 4 o'clock. They were allowed a full three hours in which to stand easy and admire the irresistible ways of red tape. To the uninitiated, to have the targets ready for the men when they arrived was a most commendable feat. The range was so arranged that it meant sending out a fatigue party in the morning, but not so with those who are supposed to set an example of punctuality, and for three hours the men, many of whom are employers, were kept in the firing, were kept waiting until the range party had done their work. These latter were brought round from the harbor on the little steamer "Layo-mot," and the firing was resumed until nearly 5 o'clock. Then a landing had to be made on Trial Island, and while the officers in charge prospected the land in order to choose a site for the targets, the men waited on the beach. The targets were in the form of dummy infantry men, and were usually placed high up on the island, in a line with intervals of about 6 feet, to represent an advancing line of battle. The targets were mounted lower down, and were supposed to be infantry kneeling. These latter were practically invisible from the guns, the range being about 2,100 yards, and so the firing was carried out against the figures in the open.

Having placed the target with all due circumspection, the range party again embarked and by a circuitous route brought back the guns. The service of the guns must be properly noted as well as the merits of the practice of the gunners. The two companies acted as one battery under command of Major Monro, Lieut.

The range being 2,100 yards, but the first shot went over the island, so the

CIVIC IMPROVEMENTS.

Victoria has entered upon an era of municipal improvements. It is difficult now to realize what a favorable change will result from the lifting of the James Bay flats and the paving of Government street. The impression produced upon visitors and persons seeking a place of residence will be excellent. The same thing can be said of the Point Ellice bridge and the improved car service which we will shortly have. But the work will not stop here. We do not propose to take up the matter of sewerage, although it cannot be long delayed, but only to refer to what may be done by private individuals to improve the appearance of the city. This is a wide subject, and a good deal of cultivation will be needed before public sentiment reaches the right stage. In most of the western cities there is lacking that pride in appearances so common in older localities. In some of the eastern cities of the population of Victoria a cardinal principle is to adopt such steps from time to time as will make them more attractive. This is not done by the municipality, but by individual citizens. Sometimes associations are formed for the express purpose of encouraging effort in this direction. The results are seen in long lines of trees in the streets, and beautifully kept sidewalks far out of the range of the business portion. The same spirit leads to the use of plenty of paint and the erection of ornamental fences, by those persons who prefer privacy for their grounds, instead of that publicity which seems to be so common in many parts of the United States. The effect of this is most excellent. Nature has done so much to make Victoria beautiful that the people have not felt the necessity of supplementing her work. Yet a very great deal can be done, and at very little expense to individuals. We hope that the time is not far distant when the same spirit which is actuating the municipality will extend to property owners personally, and that we will see our streets rendered more attractive. A Victoria gentleman suggested the other day to the Colonist that the plan of ornamenting streets adopted in Saxony and some other European countries might be tried with advantage here. There fruit trees are set out along the roadside by the municipality, and care is taken to have a variety so that they are not all in bloom at once. The sale of the fruit more than pays for taking care of the trees. There is very little damage done by the mischievous small boy, who is quite as much in evidence in Germany as in Canada. Probably the amount of fruit at hand is one reason. People who have gone much through the smaller cities of New England will recall the fact that there fruit trees stand in private grounds overhanging the sidewalks, but the fruit is not molested. It is not necessary to go away from Victoria to see the same thing, for in scores of places cherry trees present their tempting burdens within easy reach of the passerby, but no one touches them unlawfully. The idea is worth consideration. Some of our broader streets would look very beautiful if bordered with fruit trees.

A correspondent says that, as a resident of South Ward, he feels aggrieved that none of the members of the school board found time to put in an appearance at the South Park school yesterday, although it was examination day. This seems rather a strange oversight, and is the more noticeable because of a recent event.

The Times announces a special souvenir number on the occasion of the visit of the Duke of Cornwall and York. Such a publication will be very timely, especially as the city will be then thronged with visitors attracted by the royal visit and the exhibition.

ILL-BRED DOGS.

A fellow in Skagway tore down the Union Jack, which Mr. Busby, the representative of the Canadian government, displayed over his office. When Mr. Busby tried to replace it, he was prevented and told that he must hoist the United States flag over it. It is difficult to know what to say about such people. The boast of the citizens of the United States is that they have a good school system and turn out every year more educated young men than any other country in the world. Nevertheless things of this kind happen so often that one wonders at the kind of education imparted. A few years ago all the papers in the republic had a sensational story about how a schooner from St. John, N.B., sailed into Providence, R.I., with the Union Jack flying, and a crowd came down to the wharf and insisted that the flag should come down. The captain told the crowd that the first man who attempted to pull it down would be thrown into the water, and the crowd confined itself to loud talk. The next day there appeared an authoritative statement from the Treasury Department to the effect that the Captain was in duty bound to fly his flag on entering the port, so as to give notice that his vessel was a foreign bottom, and that ended the matter. Did the sensational papers give equal prominence to this explanation? Not at all. They smuggled that part of the story into odd corners. These Skagway cubs have not insulted the British flag. They have simply advertised to the world that they are a lot of ignoramuses. The United States flag floats from the top of a flagstaff every day in Victoria over the office of the United States Consul; but it has never entered the head of any resident of Victoria to suggest that it should come down or that the Union Jack should be placed over it. There is not a man, woman or child in Victoria, old enough to know anything about public matters, who does not know that the Consul has a right by courtesy to fly the flag of his nation. If some of these cubs go to Seattle or Tacoma any fine summer day, when there is much shipping in port, they will see Union Jacks conspicuous all along the waterfront. The majority of the sailing craft are British, and hence fly their colors. Other flags will also be seen, such as that of Norway, that of Chili and that of Peru; but no one is foolish enough to think they ought to come down. It seems absurd to have to speak of such things; but we do so in the hope that what we say may be seen by some of the smart Alecks who perpetrated the Skagway nonsense, and will enable them, to realize how utterly ridiculous they have been.

SHIP-BUILDING.

Mr. A. T. Kellier, of Salem, Oregon, has just returned from a visit to the Eastern States, where he has been looking into the question of ship-building. The Oregonian says:

Mr. Kellier spent considerable time in Bath, Me., a city that turns out more wooden sailing vessels, tonnage considered, than any city in the world. The materials for the building of these vessels are brought from Maine, Canada, Oregon and Florida. Practically all the materials for the building of such a vessel in Oregon can be found almost at the water's edge. Mr. Kellier figured carefully on the comparative cost of ship-building in Maine and Oregon, and arrived at the conclusion that the cost here would be but two-thirds as much as it is in Maine. He therefore feels confident that within a few years some of the large shipbuilding firms of Bath, Me., will move their plants to the Coast. He thinks it would require but little effort to induce any of these concerns to come here now and use Oregon materials and Oregon labor in the building of wooden sailing vessels. In any event, however, as the timber in the Eastern States becomes more scarce, the development of lumber manufacturing on the Coast will steadily increase, and the forests will become the great wealth producers of this section of the country.

This is of interest to British Columbia, for there is not a thing said in regard to the facilities for shipbuilding in Oregon that is not quite as true of this province, and especially of Vancouver Island. People, who have had no opportunity of seeing for themselves, can have little idea of the importance which the shipbuilding industry has been to Nova Scotia and New Brunswick. Many large fortunes were made in building ships, and others in operating them. There were ups and downs in the business, as there are in all others, but the balance is vastly to the credit of the industry. Neither in the Maritime Provinces nor in the State of Maine is the making of ships relatively as important as it once was. The use of iron for the construction of sailing ships and the multiplication of tramp steamers greatly interfered with wooden shipbuilding, except for coasting purposes, but there is plenty of room on the ocean for wooden ships, and the same reasons likely to influence New

Health and Vitality
For the Old People.

Wasted muscles, shattered nerves and failing strength may result from old age as well as from disease. As old age creeps on, vitality is lowered, the heart beats more slowly, the blood becomes thin and watery, and the power of resistance is lessened. It is the old people above all others who require the new life and energy which comes with the use of Dr. Chase's Nerve Food.

Scores and hundreds of old people depend on Dr. Chase's Nerve Food to restore their exhausted nerve force and replace their wasted tissues. It calms and quiets the nerves, gradually and certainly enriches the blood and builds up the system, and makes old people feel again the thrill of new life and vigor in their shrivelled arteries. From childhood to old age this famous food cure is the greatest blessing which medical science has bestowed on mankind.

Dr. Chase's Nerve Food

Agents wanted for Dr. Chase's Last and Complete Receipt Book.

England shipbuilders to transfer their plants to Oregon will influence the investment of capital here in the same line. It is also of interest to mention that Mr. Kellier found a growing demand in the East for Pacific Coast timber. We cannot hope for a long time to send much of our forest products to Eastern Canada, but the greater the demand in the United States for timber from Oregon and Washington, the less formidable will be the competition of those states in the outside markets where British Columbia will make the most of its sales.

Jean de Bloch, a very prominent Russian financier and publicist, declares that the recent events in China has consolidated that empire which, he says: "Will be a mighty world power within a generation." He adds that the course pursued by the European nations "has awakened a sentiment of aggressive nationalism that bodes ill for the civilizations that have held China in contempt." M. de Bloch expects that one of the first effects of the awakening of China will be commercial, and that Chinese merchants will take control of all Oriental trade.

We are not quite sure what the Times is driving at in its reference last night to the building up of Victoria trade, but this we do know, that the merchants of this city and all others interested in its welfare ought to leave no means untried of developing its outside business. Yesterday we quoted Mr. Palmer, who has large interests in Texas, as to the apparent indifference of this city to the very considerable trade being developed on that island.

The Duke of Cornwall and York is a great stamp collector. His collection is said to be one of the finest in the world, and is valued at £100,000. He has recently been presented with a full set of Australian stamps, including those issued by all the colonies. People who may have any old British Columbia letters would do well to hunt them over for any of the province stamps. The Duke would doubtless accept them.

The value of Comox coal is shown by the fact that the United States government has ordered it for use in Port Orchard naval yard. Great bunkers are to be constructed there to hold 50,000 tons, and they are all to be filled with Comox coal. Such at least is the information recently received by the Colonist from a prominent United States railway man.

The "trade mark" of the Northern Pacific railway is well known. It is copied from a symbol that has some deep religious significance in the Orient. A Japanese in Seattle was so furious at seeing the emblem displayed on a window of the company's office in that city, that he smashed the glass to pieces.

Rev. H. S. Johnson says to the young men of the west: "Go east and seize the opportunities at hand." It is not surprising that, in consequence of the great western movement of recent years there may be felt in the east a shortage of enterprising young men.

Very extensive prospecting is about to be undertaken in southeastern Alaska by some Pennsylvania parties, who will employ a diamond drill. As we have already said, the development of that region will mean much to Vancouver Island.

A new disease has appeared among horses on the Atlantic seaboard, which already by its wide-spread effect is recalling the days of the epizootic, when almost every horse in the country was affected and thousands upon thousands died.

Seeing that it was their own surveyor who discovered that the supposed international boundary line near Mount Baker was too far north, we suppose it will not be thought necessary by the yellow press to declare war.

The Post-Intelligencer says that justice will be done the men who killed the ex-Chief of Police. Perhaps so, but Seattle will not do herself justice until she has rendered the reputation of such an incident practically impossible.

The strike of the metal workers in Seattle, which was so much talked about a month ago, continues, and there does not seem to be the slightest prospect of a settlement.

Special excursion to Vancouver: steamer Yosemite, leaving Victoria 10 a.m. Sunday. Fare \$2.00 return, good until July 3rd.

Bantley's orchestra at the West-side tonight.

Helmet of Navarre.

This is the story which has been appearing serially in The Century Magazine and has attracted wider attention and been more highly praised than any of its predecessors. As the first book of a young writer, it is certainly remarkable. The critic calls it "a remarkable performance, not only for a young writer, but for a writer of any age." It is a narrative of intense and sustained interest. The scene is laid in Paris during the investment of the city by Henry of Navarre, and the story occupies but four days of the week preceding Henry's entry to give his formal adherence to the Catholic Church. The author's remarkable fertility of invention crowds the story full of plot and subplot natural to the violent times, to the clash of faiths, and to the rivalry for the hand of a court beauty known as the "Rose of Lorraine." It is a fresh, engaging and well-sustained addition to romantic fiction.

Other new books are: "The Crisis," Winston Churchill; "Observations of Henry" Jerome K. Jerome; "Work," Zola; "Doom Castle," Nell Munro; "Grustark," McCutcheon; "Pro Patria," Max Pemberton.

All the above are in our leading library.

The Jubilee

Hospital

Eleventh Annual General Meeting of the Subscribers and Donors.

Reports of the Board, Treasurer, Doctor and Matron—Directors Re-Elected.

The eleventh annual general meeting of the subscribers and donors to the Provincial Royal Jubilee Hospital was held in the city council chamber yesterday afternoon, at 4 o'clock, the president, H. Dallas Helmcken, K.C., M.P.P., in the chair. All the directors were in attendance, also a large number of ladies of the Auxiliary Aid Association.

The secretary, Mr. F. Elworthy, read the notice calling the meeting, also minutes of last annual meeting, which were adopted.

DIRECTORS' REPORT.
The following annual report of the directors was then read:

The directors of the Provincial Royal Jubilee Hospital have much pleasure in presenting a brief report upon the work of the institution during the eleventh year of its existence.

Repairs and Improvements.—The principal improvement to the hospital during the past twelve months has been the erection of a residence for the medical officer. Thanks to the liberality of the donors, whose names with the amounts subscribed are appended hereto, this has been accomplished at a nominal outlay of the funds of the hospital. The directors accept with much gratification and their warmest thanks this mark of public appreciation of the work done in the hospital which they are endeavoring to maintain in the highest state of efficiency. Although no so conspicuous, several smaller improvements have been effected. New porcelain baths have been provided in the place of the old ones in the administration building. New floors were put down in the ward kitchen and the latter were painted and generally renovated. The corridor floors were painted and the walls repaired. A new window was put in at the head of the basement stairs and the doors made to swing to a closed position, thereby relieving the pressure of the smell of cooking from the basement; the improvement is very noticeable. The main kitchen walls received a new coat of kalsomine and the range was improved. The consumption of fuel in that department has since decreased. Repainting of the crane steps, outside gutters and down pipes have been completed, and the premises generally have been kept in a good state of repair. Surgical instruments have been provided to replace those worn out, and an ample supply for the requirements of the hospital are as usual kept on hand. The ambulance is always ready for use. The vegetable garden has been much improved and become productive. The cost of vegetables and fruit has not increased in proportion to the extra demand for the necessities. The grounds generally are yearly becoming more beautiful, and the frequent donations of trees, shrubs, plants and bulbs are encouraging to the directors in their endeavor to make the surroundings as cheerful as possible for the convalescent patients.

During the year steps have been taken to materially improve the accommodation in the hospital. The sanitary arrangements in the men's wards being inadequate, a contract has been let for the erection of a larger building. Its fittings will be modern in every respect and will be contained in rooms built in the most approved manner at a cost of about \$15,000.

The directors having resolved to use their best efforts to provide and equip a children's ward during this year, have carefully considered various plans and proposals, but has not yet arrived at a satisfactory solution of the problem. The need of increased accommodation for adult patients is well known, and the building of the children's ward will give more room in the public wards for them, more private rooms are required. If the diet kitchen which has been asked for by the resident medical officer in his report to the last annual meeting is to be provided, it will be advisable to have all the private rooms in one portion of the building.

The present heating plants are taxed to their utmost capacity during cold weather. Four separate furnaces, not economical for fuel or labor and the need of one centrally situated steam heating plant for the entire building is now more apparent than ever. This will be an expensive undertaking for which the necessary funds are not available, yet as the work is sure to be done when the money is on hand, it is not desirable to spend a considerable sum now in the enlargement of the present system in order to heat the proposed new ward.

Further, any extension of the wards means more nurses and there is no room in the hospital for them.

It will be seen therefore that for economy and efficiency in construction and maintenance, the board should be furnished with funds for a steam heating plant and for building increased accommodation for nurses, the latter to be preferably in the shape of a nurses' home outside the main building, so that the money now on hand for the children's ward, collected by the Women's Auxiliary, with their well known zeal and devotion, should be expended to the advantage in the building of the children's ward.

A suggestion for changing the present sterilizing room to a position nearer the Pemberton operating room is also under consideration, and in the interests of the hospital and the nurses on whom the present system entails much unnecessary fatigue, it is hoped the means will be speedily provided for this most useful work.

The corporation of Victoria was furnished with plans and an estimate of the cost of a suitable disinfecting plant for

the needs of the city. If this plant was secured and located on the boundary between the Jubilee and Isolation hospitals, it would meet the requirements of both institutions.

French Hospital.—The French hospital was handed over to some benevolent ladies as a home for old and infirm women about three years ago. The ladies, upon finding demands outgrowing the space, asked permission to extend the building, with some guarantee that they would be allowed to hold the property. The directors did not see their way to give them the property, but when granting permission, assured the ladies that they would do all in their power to duly protect them in their good work. It is considered that the time has arrived when the property should be disposed of and the proceeds invested in necessary extensions to the main hospital buildings. This, however, is a matter which the new board of directors can deal with.

Sanitarium.—The Victoria Lumber & Manufacturing Co., owning a large tract of country in the vicinity of Chemainus, have kindly offered the directors of this hospital the privilege of selecting 100 acres of land anywhere on the company's property to be used as a sanitarium for convalescents. The selection has not yet been made, although the offer has been accepted.

Interchange of Nurses.—The directors of the Kamboups and Chemainus hospitals are anxious to enter into an agreement whereby their nurses can serve a part of their training term in this hospital, and that those who can, after examination, pass this hospital's standard of efficiency, shall receive our certificate. This has been under consideration, and it is proposed an amendment to this hospital's act of incorporation will be necessary. It is also proposed to properly disposed of. This board would like to see the formation of a provincial board of hospital directors to be appointed by the provincial government and selected from the board of directors of the various hospitals, which would meet annually or oftener, if necessary, for the purpose of discussing matters appertaining to hospital management and forwarding suggestions to the government.

Distinguished Visitors.—On July 1st last His Honor the Lieutenant-Governor, Sir Henri Joly de Lotbiniere, K.C., M. C., honored the hospital with a visit. His Honor gave evidence of much interest and expressed himself highly pleased. On the 28th of the same month His Excellency the Governor-General of Canada, Lady Minto and suite were received by the directors and ladies of the hospital. Their Excellencies' remarks and inquiries showed that they greatly appreciated the provisions made for the care of the indigent sick as well as for the patients occupying private rooms.

Training School.—In consequence of the steady increase in the number of patients, the strength of the nurses was taxed to its utmost capacity, and several of them broke down under the strain. The need of more help became apparent, and after careful consideration the directors increased the number of pupils to 16, and at the same time lengthened the period of each nurse's stay in the hospital, as regards all who join the staff after the 1st of January last, to 24 months, so that there may be at any time a graduate nurse in charge of each ward. In April Miss J. M. Grady resigned her position of matron and superintendent of the nurses' training school after two and a half years of faithful service in the capacity for which she was presented with a testimonial. Miss E. P. Alcorn, a graduate of the Montreal General Hospital, was chosen to fill the vacancy, and the training school has progressed satisfactorily. A thorough training in medical and medical cases is given and the directors can refer with pride to the high positions held throughout the province and elsewhere, by nurses who have graduated at the hospital. The directors have made a first contribution towards a nurses' professional library, and have furnished a sitting room for their use.

Visiting Medical and Surgical Staff.—The directors take this opportunity to thank the visiting medical and surgical staff, who by their untiring good services have done so much to promote the welfare of the patients and popularity of the hospital.

Recognition and Thanks.—The directors cannot allow this opportunity to pass without recording their grateful appreciation and thanks to those ladies of the Women's Auxiliary, who have so satisfactorily assisted in the maintenance of the institution. The total amount they have expended upon the hospital during the past year amounts to \$1,500, not including \$110 towards the doctor's residence, figures which appeal more eloquently than words.

The directors are much indebted to and thank the British Columbia Board of Trade for free office room for the holding of their meetings.

The directors beg to sincerely thank the very numerous donors of flowers,

fruits, poultry, and, in fact, articles of every description, including a flag pole 165 feet in length, from the Victoria Lumber & Manufacturing Co., which have been duly acknowledged in the public press and by a formal intimation of a vote of thanks, by post, in each case.

The thanks of the board are extended to the Colonist and Times newspapers for their kind notices and for their papers supplied daily.

TREASURER'S REPORT.
The following reports of the treasurer and auditors were read and adopted:

To the Directors of the Provincial Royal Jubilee Hospital.

Gentlemen,—In submitting the annexed annual statement of receipts and disbursements, it is necessary to state that the sum of \$872.28 shown as due to the Bank of British Columbia by the last annual statement has been reduced to \$622.65, and covers all known liabilities of the hospital to the 31st May, 1901.

The expenditure of \$29,423.40 during the past year as against \$28,370.03 in the previous year shows an increase due to a larger number of patients treated, and also to the increased number of days' stay at the hospital.

The greatest economy has been exercised and everything has been done so that the utmost efficiency shall be maintained.

The bachelor's donation of one hundred dollars, with accrued interest amounting to \$100.84, toward a Maternity Ward is deposited in the Savings Bank Department of the Bank of Commerce.

VICTORIA AND VANCOUVER

Visitors to Vancouver during the holidays are invited to inspect our new Piano Warehouses on Hastings street. The beautiful stock of "MASON & RUSCH" Pianos exhibited there, is one of the sights of the city.

The new "Mason & Rusch" Baby Grand Piano, now on view is a credit to the company, and, like the Upright Mason & Rusch Pianos, is the pride of music-loving Canadians.

Gold Bought

At Full Value

Victoria Banks Pay Mints Mint Price For Their Gold.

Fact Widely Advertised by the British Columbia Board of Trade.

The two gold bricks brought down from Week Bay by the Queen City, as reported in yesterday's Colonist, were sold at their full mint value to the Canadian Bank of Commerce. They weighed, respectively, 66.90 and 57.77 ounces, and their value aggregated \$2,020. The Sutton hydraulic mine, from which the bricks were produced, expects to turn out about the same quantity of gold fortnightly during the season. The fact of their being bought at their full value is due to the action of the British Columbia Board of Trade and the district authorities, who, some weeks ago, raised a fund to guarantee the banks the difference between the mint value of gold and regular market value, which is made up by costs of assaying, express charges and insurance, while the bank is in transit to the mint. This guarantee fund now amounts to over \$10,000, and is in less than two days, and is in position to make it up to \$10,000.

Yesterday Mayor Hayward, who has taken an active interest in the matter, brought the owners of the bricks and the bank authorities together and arranged the purchase, the first in a series, made in Victoria. The bank of trade has issued checks for the bricks, and the bank of Victoria are prepared to purchase gold at its full mint value, and these are being distributed throughout the Northern gold fields. One of the members, Mr. A. G. McCandless, says in the Yukon and a number of the others have been sent him to pay up at the hotels, stores, post offices and other public places. Several have been framed and placed on the C. P. X. Company's steamers in the Northern trade, and on the Yukon river boats. (The Colonist, June 28, 1901.)

The gold purchased here is assayed at the provincial assay office, and the assays are marked with the official stamp of the department of mines, so that the sellers are assured of getting full value. Thus Victoria, although it has no Dominion purchasing assay office, is placed in exactly the same position as the other gold fields, and can guarantee the buyers that they will receive full value for the product of their labor—a fact which reflects credit upon the enterprise of the citizens.

SPORTING NEWS

CRICKET MATCHES.

Collegiate Team Defeated by the Midshipmen Yesterday.

Yesterday afternoon the Midshipmen defeated the Collegiate school eleven with a score of 171 to 12, after an interesting and well contested game. For the Midshipmen, Bowdler practically won the match by contributing 88 not out in brilliant style. Underwood also played very well for 29 runs. For the Collegiate, K. Gillespie made 48 not out in fairly good style; Barradough, the school coach, put together a very welcome 27, and Munat took 4 wickets for 16. Gillespie and Barradough combined to put the Midshipmen in a bad position. Gillespie took 4 wickets for 32 runs, and Barradough 4 for 50. A match will be played this afternoon at 2.15 o'clock between the Fifth Regiment and Royal Artillery Cricket clubs on the grounds of the latter at Victoria Point. Players are requested to take 2 o'clock train from Carleton Place. The following team represents the Fifth Regiment: Capt. A. J. Martin, Lieut. H. M. Graham, W. York, P. A. Fletcher, J. A. McFadden, A. McFadden, C. McLean, C. Schwegler, L. S. York (Capt.), C. Bentley and W. Williams.

On Thursday afternoon the sailors from the warships defeated the midshipmen in an exciting cricket match, with a score of 75 to 68.

SPORTING NOTES.

The Victoria intermediates and Seattle lacrosse teams will play at Victoria on the Fourth of July. The Nanaimo baseball team is playing Victoria at the Oval City today. A. A. Green, Greenwell, P. J. Allen, Turner, Ashman, Culligan, Friend, Graham, Gordon, Williams sub.

SUNDAY CONCERTS.

6. Patrol—See Gambia 6
7. Waltz—Wedding 7
8. Two Steps—The Traveller 8
9. Caprice—Amantibus 9
10. Gavotte—Little Princess 10
11. March—The Traveller 11
12. March—Kaiser's Jubilee 12
God Save the King.

If you are nervous or dyspeptic, try Carter's Little Nerve Pills. They make you nervous and dyspeptic, and these little pills cure both.

Local News.

Pay Your Taxes.—Attention is drawn to the fact that this is the last day for paying provincial taxes to secure the rebate.

Smallpox at Skagway.—The White Horse Tribune of June 19 says that there are five cases of smallpox at Skagway.

Play at Townsend.—The City band has been engaged to play at Port Townsend on July 4 and will leave for the Sound port on Wednesday next.

Elected Officers.—The Sir William Wallace Society, at its regular meeting, elected the following officers: Chief, W. C. Kerr; chairman, J. H. Potts; second, C. H. Jamieson; secretary, C. H. Jamieson; treasurer, C. H. Jamieson; auditor, W. C. Kerr; Mr. Crickshanks; bard, J. H. Potts; trustees, J. H. Mackie and R. H. Jamieson; chaplains, Rev. Dr. Campbell and Rev. W. H. Gray.

Funeral of John Ward.—The remains of the late John Ward were laid to rest in Ross Bay cemetery yesterday afternoon. The funeral took place from the family residence, No. 124 Quadra street, at 2.30 p.m., and at Christ Church cathedral at 3 o'clock. Services were conducted by the Rev. Canon Beaudin, assisted by the Rev. Canon Beaudin. There was a large attendance of friends and many beautiful floral designs, showing the esteem in which the deceased was held. The following gentlemen acted as pallbearers: Messrs. P. Wollaston, N. Shakespear, T. Earle, M. P. H. Goward, E. Lewis and R. H. M.P.P.

Realty Sale.—Town lot 424, located on Commercial street, is being sold by public auction on Wednesday next at noon, at the Board of Trade, by Joshua Davies, who has issued and is distributing a lithographed plan of block 4, showing the location of lot 424. This property is 40x120 feet, assessed at \$4,200, the improvements being a two-story brick building, having two stores, the assessed value being \$5,000. The premises are leased at \$80 per month. The sale proceeds are to be used to pay the mortgage of \$4,200, the balance of the mortgage, whose mortgage is far below the value of the property, so that there is hardly a doubt that the property will change hands.

Stands First and Highest

Paine's Celery Compound

A Noted Physician's Prescription For the Banishment of Disease.

Physicians, druggists and those competent to judge, candidly acknowledge that Paine's Celery Compound has called forth the most valuable and the strongest testimonials ever published in the press of the country. Each letter or testimonial tells of the extermination and banishment of rheumatism, neuralgia, kidney troubles, skin diseases, dyspepsia and headaches. The good work done by Paine's Celery Compound brings satisfaction, joy and peace because the cures are always permanent. Thousands of the best men and women in Canada today can attest to the wonderful discovery of America's greatest physician. Is now within the reach of every afflicting pain, young and old, and should be used before sickness and disease are aggravated by the coming hot weather. If you entertain doubts regarding the curative and life-giving virtues of Paine's Celery Compound, speak to your druggist about it or consult your friends and neighbors who have been cured by it.

Palpitation of the heart, nervousness, trembling, nervous headache, cold hands and feet, pain in the back, and other forms of weakness are relieved by Paine's Celery Compound, made specially for the blood, nerves and complexion.

Tel. 204. Don't miss Govt. Auctioneers.

provide funds towards the proper equipment of a sterilizer room in the near future.

There remains only the diet kitchen and the children's ward from last year's special needs to be provided.

I would respectfully urge on the directors the necessity of installing a system of heating and draining the hospital before undertaking any additions or alterations to the building. I feel confident that economy would best be practised in this direction, and an immense saving in fuel effected.

There is urgent need for an increased number of private rooms. I have on many occasions had to refuse patients owing to want of rooms during the past year.

I would also draw the attention of the board to the need there is in the city of an infirmary, where the rapidly increasing number of infirm and chronically ill patients, who are not fit subjects for hospital treatment could be permanently provided for.

Through the kindly interest of the grounds committee, and thanks to many generous friends, the garden and grounds continue to improve, and are a great source of pleasure and comfort to both patients and staff.

The kitchen garden and piggery are proving a saving of income to the hospital. I have again to draw attention to the flooding last winter of the grounds by the hospital gate, the storm drain from Richmond road and the Fernwood estate, the civic authorities having up till now done nothing to abate the nuisance.

I have great pleasure in reporting the continued interest taken in the hospital, and its welfare, by the members of the Women's Auxiliary society. The hospital owes a great debt to them for their intelligent interest, sympathy and help. From them, and from their contributors, the hospital has received during the year, valuable donations, of two dressing wavers, an ambulance litter, and an invalid chair, in addition to their customary donations of linen, crockery, and other necessities and comforts.

Hearty thanks are due to the King's Daughters, who through all sorts of weather, make their weekly visits to the wards with papers and flowers.

Ministers of all denominations have held their services in the hospital on Sundays, and have attended the sick individually when their services were required.

Since we have also due to the medical staff, whose kind services to the patients in the public wards have been given cheerfully and ungrudgingly. The employees of the hospital have worked harmoniously and well during the year.

The health of the staff, with the exception of two serious cases of illness among the nurses, has been good. The appointment of a trained nurse to each block has been found to work extremely well, and I am grateful to the board for adopting my suggestion.

I beg to enclose detailed lists of statistics for the year, and have the honor to remain, EDWARD HASELL, M. R. C. S., England, Resident Medical Officer, May 31, 1901.

TRAINING SCHOOL.

The superintendent of nurses made the following report, which was adopted: Gentlemen, have the honor of submitting to you the report of the training school for the year ending May 31, 1901.

Our staff at present consists of Miss Gordon, head nurse, and seventeen nurses in training, six seniors, five assistants, four juniors, and two probationers.

We have had six graduates for the year: Miss H. Maule, Miss Macdonald, Miss A. Macne, Miss G. M. Perry, Miss Mary Beale, Miss Etta Fraser.

During the year the results of the entrance examination for the training school, nine of them have been admitted as pupil nurses.

The attending physicians and surgeons, and the post-operative medical officers, have always been courteous and helpful. We have to thank Drs. R. L. Fraser, H. Hall, F. W. Hall, H. M. Robertson, J. C. Davis and E. Hassell, for lectures given to the nurses in training.

Kind friends have furnished us with milk, flowers and magazines. By the kindness of the Women's Auxiliary we have been supplied with dishes, linen and other necessary comforts.

The visits of the King's Daughters and the Daughters of Pitt have been pleasant and inspiring. They have also contributed many offerings which tend to the welfare of the patients.

A donation of \$10 has been received to be used in the purchase of books for the nurses' medical library.

The comfort of the nurses when off duty has been greatly added to by the use of the sitting room, which was vacated by Dr. Hassell.

Superintendent of Nurses, June 27, 1901.

ELECTION OF DIRECTORS.

The retiring directors—Messrs. Holmeken, Wilson, Davies and Pemberton—were re-nominated and re-elected by acclamation, amidst applause.

Mr. Holmeken expressed his pleasure at having had the privilege of attending the annual meeting of the Ladies' Auxiliary, and noting the interest which the ladies were taking in their labor of love, the services which they had rendered to the hospital, and he estimated, it was noble, grand, and reflected credit on their Christian womanhood. He hoped their efforts would be exerted as successfully in the future as in the past. (Applause.)

He called attention to the ever-increasing demands upon the hospital, as outlined in the reports which had been read, and urged the necessity for all interested in the institution to redouble their efforts in promoting its interests. The provincial government and the city had done their share in assisting and individuals had very generously contributed to its support.

The work of the hospitals was increasing everywhere as population increased, and he thought it time that some when a combined effort should be made to formulate a plan by which the work could be made more effective. He would favor the organization of a provincial board of directors, composed of representatives chosen from the local hospital boards, which would meet and confer as to the best methods of management—such a movement should be productive of good, and he proposed suggesting legislation in that direction at the next session of the legislature. (Applause.)

On behalf of the directors he thanked the officials of the hospital for the good

JOSHUA DAVIES

AUCTIONEER

Under instructions from the Hon. W. C. Wells, Chief Commissioner of Lands and Works, I will sell by public auction

AT PRINCETON

Wednesday, July 17, 1901

at 11 o'clock, a. m.

THE GOVERNMENT TOWNSITE OF

Tulameen

Located at OTTER FLATS at the FORKS OF TULAMEEN RIVER and OTTER CREEK at the south end of OTTER VALLEY, in the centre of the great mining district of

SIMILKAMEEN

whose coal measures have been traced from north of "TULAMEEN" Township, across and extending to the south branch of the SIMILKAMEEN river. "TULAMEEN" being located in the CENTRE OF THE COAL AREAS, which are being vigorously prospected, under licenses issued by the Lands and Works Department.

HYDRAULIC AND PLACER MINES are being worked on Granite and Slate Creeks and LODGE MINING is attracting much attention from the rich ore found on KELLY, EAGLE, OTTER and BOULDER CREEKS and upon the TULAMEEN RIVER.

At ASPEN GROVE, on Otter Creek, about twenty miles north of "TULAMEEN," The Big Sioux Grant and Portland Claims with numerous others, are credited with large ore bodies.

In Otter Valley are to be found some good farms and hay lands, those under cultivation raising good crops.

The GOVERNMENT WAGON ROAD from NICOLA runs through TULAMEEN, Princeton, Allison, and is the main wagon road to all Lower SIMILKAMEEN, Okanagan and Boundary districts.

RAILWAYS

The Vancouver and Grand Forks Railway, incorporated 1901. See Bill No. 72.

From Vancouver to New Westminster, following the south bank of the Fraser river to Chilliwack to Hope; following the Coquella and Coldwater rivers, thence along the Otter river to its junction WITH THE TULAMEEN RIVER, where the TOWNSITE OF "TULAMEEN" is located, thence to Princeton, Okanagan Lake, Midway and Grand Forks, with branches, etc.

The C.P.R. have a line located through Allison to Spence's Bridge.

Are you interested in flowers that need no water in summer? If so, call and see the California Mariposa Lilies now in flower at the Inver-tash Nursery.

EDW. ALEX. WALLACE.

of Comnaught, should interest the royal visitors in its welfare. (Applause.)

Mrs. Hassell suggested that an invitation should be extended to Their Royal Highnesses through Lord Minto, without delay. It would be most appropriate that the Duchess of York should lay the corner stone of the Children's Ward.

Mr. Holmeken said he had already written to Lord Minto on the subject of the royal visit to the hospital.

Mr. Davies would rather see the Children's Ward formally opened by the Duchess than that she should lay the corner stone. (Applause.) He was glad to see the mayor present, and he called to gentlemen's attention to the good use the directors were making of the civic grant. They did not boast of saving money, but they could point to the steady improvements being made to the hospital and grounds.

Mr. Wilson argued the necessity for a maternity ward, which he maintained, was more necessary than one for children. He also dwelt upon the importance of training nurses, specially in maternity cases. He considered that the second story of the present building should be utilized to provide six more private wards. He was happy to say that the complaints made against the management during the year proved, on investigation, to be groundless. (Applause.)

The meeting then adjourned.

A CATARRH SPECIALIST.

Mr. James Spence, Clachan, Ont., says: "I have been a sufferer from catarrh for 15 years, which became chronic. I have spent a lot of money and consulted several doctors among others a specialist in London. I have tried everything I could hear of or see advertised without doing me any good. But, thanks to Dr. Chase's Catarrh Cure, I am completely cured after using three boxes of it. I recommend it to anyone suffering from catarrh."

Excursion to Vancouver. Return rate \$2.00, good till July 3rd.

Grand regatta and aquatic and field sports at Ladysmith, July 1. Fifth Regiment and City Bands in attendance. Trains leave Victoria at 9 a.m. and 1:30 p.m.
